

## Setting up your Android device to the Hyderi Calendar

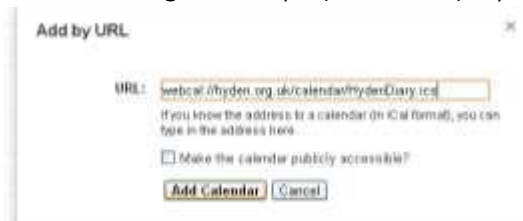

This guide lists the steps which will allow you to see the Hyderi Diary of Events on your Android calendar automatically (**this can only be done on a PC/Laptop or a Mac**)

- 1.) On the address bar type in <https://www.google.com/calendar/render> (and login with your google account)
- 2.) Copy <http://www.google.com/calendar/ical/thisweek%40hyderi.org.uk/public/basic.ics>
- 3.) On your google calendar, click on the arrow next to **other calendars** and select **Add by URL**

- 4.) Paste the original link (copied in step 2) in the URL box and click Add Calendar

- 5.) On your Android Device go to **Settings** > Select **Accounts and Sync** > Select your **Google account** > Press **Menu** and tap **Sync Now**

Your Android device should now display all Hyderi programs directly on your calendar (**It will automatically update provided you have allowed your device to sync automatically**)

For this to display on you calendar's phone then you will have log into your phone with your google account.
